# WHICH COUNTRY IS THE RICHEST IN EUROPE?

# The answer is Luxembourg

Luxembourg is the richest country in the European Union based on the GDP per capita indicator for the average GDP of all EU countries. This indicator, converted into purchasing power parity (PPP), in Luxembourg is six times higher than the same indicator for Bulgaria, the poorest country in the bloc (283% vs. 43%). At the same time, the average GDP per capita (PPP) in the euro area is at 108%.

Over the past year, the GDP of Luxembourg amounted to 59.475 million dollars, the country ranked 69th in the world ranking, bypassing Sri Lanka and Syria. GNI per capita is high and is 78130 dollars.

**Which country have fastest  
economics improvement ?**

# The answer is Poland

In the last 10 years, Polish economy grew constantly and never reached negative value. Poland's growth has been based primarily on 5 pillars:

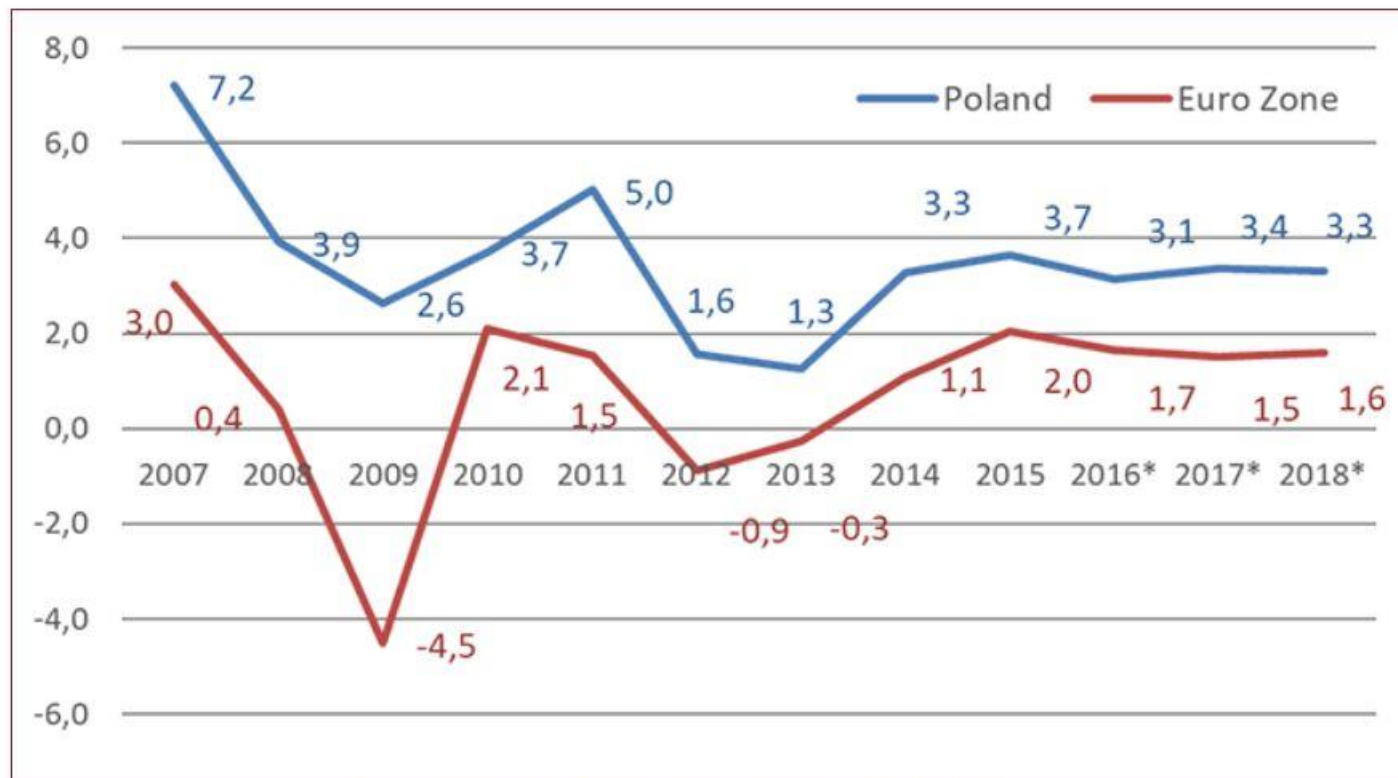

1. dynamic exports,
2. strong internal demand,
3. productivity improvements,
4. inflow of foreign direct investment (FDI),
5. inflow of EU funds.

# Which port is the largest in Europe?

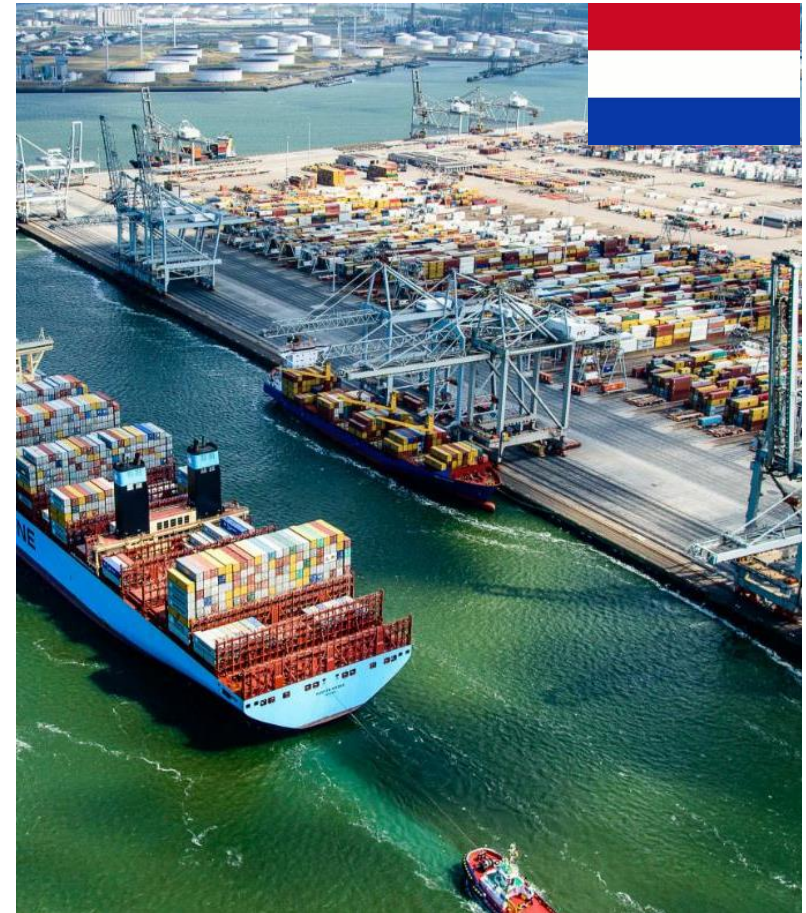

# The answer is Rotterdam

The Port of Rotterdam is a barometer of the world economy.

The reasons are:

- 1) the big corner that connects EU countries with the outside world.
- 2) it is located in the center of Europe, where there are some of the largest centers of engineering and industry.
- 3) it has an excellent transport infrastructure that would link it to the rest of Europe.

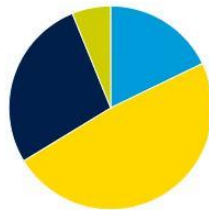

# Facts & figures about the port

## Throughput 2016
